

The instructions below pertain to returning MPO Online users who were using MPO Online PRIOR to our November 2008 conversion.

If you have successfully logged into MPO Online AFTER November 2008, please close and disregard the instructions indicated below.

Returning Users - First Time Log on

1. Logon Id - enter the same user id as in the "old" online banking product.
2. Be sure to CLICK ok -
3. Your temporary security code, to be used just this once, is abcd####. Replace the # signs with the LAST FOUR of the PRIMARY's social security number.
4. You will then need to select a NEW picture.
5. And create a NEW phrase.
6. Select and save your new test questions. Once complete you may print out this information for future reference.
7. You will be reminded to change your security code.

****New security code MUST be at least 8 characters long. You MUST use alpha numeric format. For instance, you may want to use your pets name as a password - so you would enter fido2008 or felixcat08 or similiar. ****

If you are having a difficult time accessing the internet - you will need to check your browser settings and cookie handling. Our new site has a bit more "front end" security and your system will need to be configured properly in order to be able to utilize MPO Online. Click on the link below to assist you -
